aarushras18@gmail.com | 9625726211 | LinkedIn | GitHub | Portfolio

## SUMMARY

---

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, with a strong foundation in Data Structures & Algorithms, machine learning, and software development. Experience building AI-driven and full-stack projects, with leadership experience through campus technical activities.

## EDUCATION

---

**SRM Institute of Science and Technology – Delhi NCR**

**2023-2027**

B.Tech in Computer Science and Engineering – Artificial Intelligence and Machine Learning

CGPA: 8.5/10

## TECHNICAL SKILLS

---

**Programming Languages:** Python, C++, Java, JavaScript, SQL

**Languages and Frameworks:** HTML, CSS, Next.js, React.js, Node.js, Express.js, TensorFlow, TensorFlow Lite, Pandas, NumPy

**Tools and Technologies:** Firebase Authentication, Firebase Databases, Razorpay, Git, GitHub, PostgreSQL

**Technical Skills:** Machine Learning, Data Structures & Algorithms, DBMS, OOP, REST APIs

**Areas of Interest:** Artificial Intelligence, Full-Stack Development

**Domain Knowledge:** Edge AI

## EXPERIENCE

---

**CO-Executive –Computer Society of India (CSI), SRMIST Delhi NCR Student Chapter**

*Progression: Volunteer → Management Lead → Co-Executive*

Aug 2024 – Present

- Progressed through **3 leadership levels**, from Volunteer to Management Lead and subsequently Co-Executive, taking on increasing responsibilities in event planning and execution.
- As Management Lead and Co-Executive, managed technical events and activities involving **2,000+ participants**.
- Led and coordinated a team of **200+ volunteers**, overseeing event operations, participant management, and execution.
- Led sponsorship outreach and partnerships, collaborating with **5+ brands across multiple industries**, including food and apparel.

## PROJECTS

---

**VOID – Full-Stack E-Commerce Platform**

- Developed a full-stack e-commerce platform implementing **5 core workflows**: authentication, product browsing, cart management, order processing, and online payments.
- Built RESTful backend APIs using Node.js and Express.js for product, user, and order management.
- Integrated Firebase Authentication for secure user login and Razorpay for online payment processing.
- Designed a responsive user interface with database integration and deployed the application on Vercel.

**VisionDX – Retinal Disease Detection System**

- Developed a ResNet50-based deep learning system using TensorFlow to classify **7 retinal disease classes** from fundus images.
- Built an end-to-end machine learning pipeline using **55,446 training images**, covering image preprocessing, model training, validation, and prediction generation.
- Achieved **96.93% test accuracy** and a **96.94% weighted F1-score** on **1,236 test images**.
- Achieved a best validation accuracy of **91.45%**, with the model trained using **AdamW** optimization.

## CERTIFICATIONS

---

**100 Days of Code™: The Complete Python Pro Bootcamp**

Udemy

**Machine Learning A-Z: AI, Python, and R + ChatGPT Prize**

Udemy

**Natural Language Processing**

NPTEL

**Data Mining Techniques Using SAS Enterprise Miner**

Infosys Springboard

**Data Mining with Python**

Infosys Springboard

## EXTRACURRICULAR ACTIVITIES

---

Management Lead

Head Boy – Air Force School Ghaziabad

NCC – A Certificate
